SUPERFUND BRANCH

Mr. Neil E. Thompson  
U.S. Environmental  
Protection Agency  
1200 Sixth Avenue  
Seattle, WA 98101

Dear Mr. Thompson:

Appreciated the opportunity of meeting with you on February 8 and after receipt of your photograph with the approximate locations for the proposed monitoring wells in the Greenacres landfill area, I have signed the requested "note for access" as you requested in your letter of February 11. Because our office was not open yesterday, my letter is dated February 19 rather than the 18th.

Thanks for your courtesy in this matter. Will you please keep me personally informed as to your progress in monitoring these sites. It is my understanding that in drilling these wells you will avoid media coverage of the event - I'm depending on that!

Yours very truly,

*Wells B. McCurdy*

REPLY TO  
ATTN OF: M/S 525

CONSENT FOR ACCESS TO PROPERTY

Property: Holiday Hills Recreation Center, Inc. (Greenacres Landfill Site)  
Location: Liberty Lake, Washington

I hereby give my consent to officers, employees, authorized representatives, and persons acting at the request of the United States Environmental Protection Agency (EPA) to enter and have access to the property identified above for the following purposes:

1. The construction and maintenance of monitoring wells, including emplacement of durable identification markers;
2. The taking of such soil, water and air samples as may be determined to be necessary;
3. The proper abandonment of any well(s) constructed; and
4. Other actions (e.g., the staking of subsurface utility locations, surveying, etc.) related to the investigation of surface or subsurface contamination.

Upon completion of monitoring, all material and equipment will be removed by EPA, and the property will be restored by EPA (as nearly as practicable) to its original condition.

Mr. Wells B. McCurdy  
One Union Square, Suite 2500  
Seattle, Washington 98101

Dear Mr. McCurdy:

Based on our meeting of February 8, 1985, we are enclosing a photograph with the approximate locations for the proposed monitoring wells in the Greenacres landfill area. Please note that these are approximate locations which may have to be adjusted due to the terrain. In regard to the up-gradient monitoring well location (southern well), we have outlined a general area for consideration. Local obstructions and aesthetics considerations will be used to determine exact location.

Please complete and sign the enclosed "note for access" by February 18, 1985, so we may proceed with our investigation as agreed in our meeting.

Thank you for your cooperation.

Sincerely,

Neil E. Thompson  
Site Project Manager
